

End of Semester Course Evaluation

Purpose:

Students evaluate their effort, the learning and teaching methods and the lecturer's performance. The analysis can be used for assessing a lecturer's effort but most importantly for self-improvement in terms of teaching styles and teaching techniques for producing the most effective learning.

Method:

Students respond to statements in the absence of the lecturer. Responses are anonymous. Responses are keyed in and analyzed using both MS Excel and SPSS. For statements 1 through 49, the keys used are:

1 = Strongly disagree	2 = Disagree
3 = Agree	4 = Strongly agree
