

## **Workshop on Outcomes-Based Teaching & Learning (OBTLA & Outcomes-Based Assessment-Grading)**

This workshop aims to assist you in identifying and practising the most relevant and constructively aligned assessment tasks (ATs) and instructional/teaching learning activities (TLAs) for the course you will be teaching this coming semester.

Outcomes of the workshop are: Upon completion of the workshop, participants will be able to:

1. Compare & contrast between the transmittalist and the Student-Centered-Learning (SCL or Active Learning-AL) Instructional strategies.
2. Propose and communicate (verbally and in writing) constructively aligned Outcomes-Based Teaching & Learning Activities (OBTLAs) you will employ for the course and for the first 2 units of the course you will be teaching next semester.
3. Explain the models and approaches of outcomes-based assessment (OBAs)
4. Describe the characteristics and processes of outcomes-based assessment
5. Reflect the present assessment models, approaches and processes of the course you had taught.
6. Propose and justify the assessment models, approaches and processes for the course you will be teaching.
7. Develop and communicate (verbally and in writing) constructively aligned assessment tasks, the assessment weightage for the tasks, the performance criteria and the standards (rubrics) for the course you will be teaching.

The outcomes above are very demanding and challenging to achieve in a 2-days workshop but I shall try to facilitate its accomplishment. The achievement can be realized if all participants commit their time, energy and passion towards the goal. Hence, the activities will require involvement of ALL the participants. This workshop is for those who are ready to implement the paradigm shift strategies towards a more accountable graduates who will be more employable aligned with the objectives of the program, the vision & mission of the university and the attributes required in the Higher Education Transformational Plan.

Participants are highly encouraged to bring their laptops so that they can work on the materials for their own course. Each participant will need to have a set of course outcomes that has been identified to assure achievement of the POs. They must also bring a set of lesson outcomes for the first 2 units of learning in preparation for the workshop.

Agenda:

Day 1:

- 9:00-10:30am Science research on Metacognition & the Learning Process  
10:30-11:00am Coffee Break  
11:00am-12:00 Best practices in SCL-TLA.  
12:00-1:00 Breakout into groups to propose OBTLAs  
1:00-2:15pm Lunch Break  
2:15-3:45pm Breakout into groups to propose OBTLA  
3:45-4:15pm Coffee Break  
4:15-5:30pm Presentation by groups (volunteer)

Day 2:

- 9:00-10:30am Theory on assessment-approaches, models, processes, methods, ATs, OBA & OBG  
10:30-11:00am Coffee Break  
11:00am-12:00 Breakout into groups to reflect on the present & propose ATs & methods for the future  
12:00-1:00 Continue groups activity: Propose weightage, OBG  
1:00-2:15pm Lunch Break  
2:15-3:45pm Continue groups activity: Propose rubrics  
3:45-4:15pm Coffee Break  
4:15-5:30pm Presentation by groups (volunteer)

Requirements:

- If possible, a monitor for each group or if participants can bring LCD from faculty, it can be used for their group during discussion (FSG groups).
- Laptops for each participant (they bring their own)
- Plug points for each participant (supply enough extension cords without causing a blackout)
- Sufficient or comfortable space for participants & me to move around.
- Some papers for the groups to use during discussion.

OK, that is all for now. Please don't hesitate to email or sms me for further clarifications. I shall prepare materials for the lecture & some templates for the group tasks as well

Saya percaya tenaga pengajar akan berjaya menghasilkan produk yang telah di cadangkan supaya mereka boleh menggunakannya sebaik-baik

saja semester bermula pada bulan Julai 2010. Penghasilan produk ini akan berjaya dengan komitmen yang tinggi dari setiap peserta bengkel dan sokongan tidak berbelah bagi yang telah ditunjukkan oleh TNCA Prof Musa dan juga Pengarah Pusat Inovasi PnP Dr CW Zanariah.

InsyaaALLAH. Kita bertemu dan berbengkel pada tarikh yang dipersetujui.

Thanks.

Cheers & Smile Always

Dr Jaafar Jantan aka Dr JJ  
Associate Professor of Physics  
Faculty of Applied Sciences, UiTM, 40450 Shah Alam, Selangor, MALAYSIA  
Vice Chairman, Asian Physics Education Network, (ASPEN), UNESCO  
Chairman, Asian Physics Education Network, Malaysia (SKUM-MOSTI)  
Certified Coach, Transformational Heart of Coaching  
OBE-OBTL Consultant & Facilitator
